[www.apinstruments.pl](http://www.apinstruments.pl)

A.P. Instruments is active in sales, provision of consumables and trainings in the scope of:

- measuring instruments for **particle size, zeta potential and molecular weight, shape of solid particles**
- measuring instruments for laboratory and on-line analysis of **TOC** in liquids
- field flow fractionation (**FFF**) **technique**, being modern alternative to **chromatography**
- atomic force microscopes (**AFM**)
- raman spectrometers for **process control**
- **Circular dichroism** (CD) spectrometers
- **Microcalorimeters** for characterization of biomolecular stability and interactions
